**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. PCT/US00/18588

I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, pages:

1,3-18 as originally filed

2,2a as received on 11/06/2001 with letter of 08/06/2001

Claims, No.:

5-14 as originally filed

1-4 as amended under Article 19

Drawings, sheets:

1/8-8/8 filed with the demand

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT**

International application No. PCT/US00/18588

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:
- ☐ the claims, Nos.:
- ☐ the drawings, sheets:

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)):

(Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.)

6. Additional observations, if necessary:

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes:	Claims	4-8, 12-14
	No:	Claims	1-3,9
Inventive step (IS)	Yes:	Claims	4-8, 12-14
	No:	Claims	10,11
Industrial applicability (IA)	Yes:	Claims	1-14
	No:	Claims	

**2. Citations and explanations
see separate sheet**

Part V.

1. Reference is made to the following documents:
D1=US-A-5 060 314 (LEWIS MICHAEL L) 29 October 1991 (1991-10-29)
D2=US-A-5 903 920 (GRANQVIST KAJ) 18 May 1999 (1999-05-18)
2. Document D1 is concerned with (see figures and col.2, line 65-col.4, line 11, col.5, line 63-col.6, line 6) a protective waistcoat 10 comprising a front section 14, 16 and a back section 12 and connecting means 24 for connecting the two sections, wherein the front section comprises at least one upper plate-formed armour cover part S for substantially covering the chest section of a person wearing the waistcoat, at least one lower-plate formed armour cover part 36,62 for substantially covering the abdominal region of the person (refer to fig.4), and that at least some of said armour cover parts S, 36, 62 are arranged in partly overlapping relationship (passages at col.3, lines 37-40 and line 63-col.4, line 11) to each other so as to allow said parts to slide over each other (claim 1).
3. The further ancillary features of claims 2 and 3 are also part of the state of the art as depicted by document D1 by simply observing that sign 14 denotes a left combined front side panel and reference 16 indicates a right combined front and side panel, both pertaining to the waistcoat 10; these panels 14 and 16 are identical function performing items than cover parts 16a, 16b and 18, as referenced in your application.
4. Furtheron each armor cover part S, 36, 62 of the waistcoat 10 according to document D1, comprises a fabric lining F forming an enclosure, and a first protecting ballistic resistant material held in said enclosure (claim 9).
5. Lack of novelty is then observed in the content of claims 1-3 and 9: claims 1-3 and 9 do not satisfy Art.33(2) PCT conditions.
6. The additional peculiarities of claims 10 and 11 are already mentioned in document D2 (see col. 2, line 8-col. 3, line 16; fig.3; ref. signs 3a-3z; 31a-31z) as depicting a garment for personal protection and aiming to the same scope of your application: to provide a more easy wear of the waist coat itself.

**INTERNATIONAL PRELIMINARY
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/US00/18588

No inventive activity is therefore noted in the obvious combination of document D1 and D2 teachings: claims 10 and 11 are not in line with Art.33(3) PCT criteria.

7. The combination of features of dependent claims 4 to 8 and 12 to 14 is neither known, nor rendered obvious by the available prior art. Their inclusion in the matter claimed by principal clause 1, under the provisions of Rule 6.3(b) PCT, do contribute to a more effective wearing comfort of the claimed waistcoat by denoting an inventive step over the acknowledged document D1 state of the art: claims 4-8 and 12-14 accord with the provisions of Art.33(1-4) PCT.
